About Me
Find out who I am, where I'm from and what I'm all about.
Who I Am
My name's Roba. I'm currently a student at Coder Academy.I have a passion for coding and problem solving.looking forward to be a full stack developer.
Background
I worked as a teaching assistant after graduating from university with math and computer science bachelor degree. I helped students use basics of programming to solve problems. After that I moved to Australia with my family and had a long break to care for my two lovely children. During that I taught myself a few technologies like javascript, jquery and .Net framework. I then started studying with Coder Academy to take my skills to the next level.

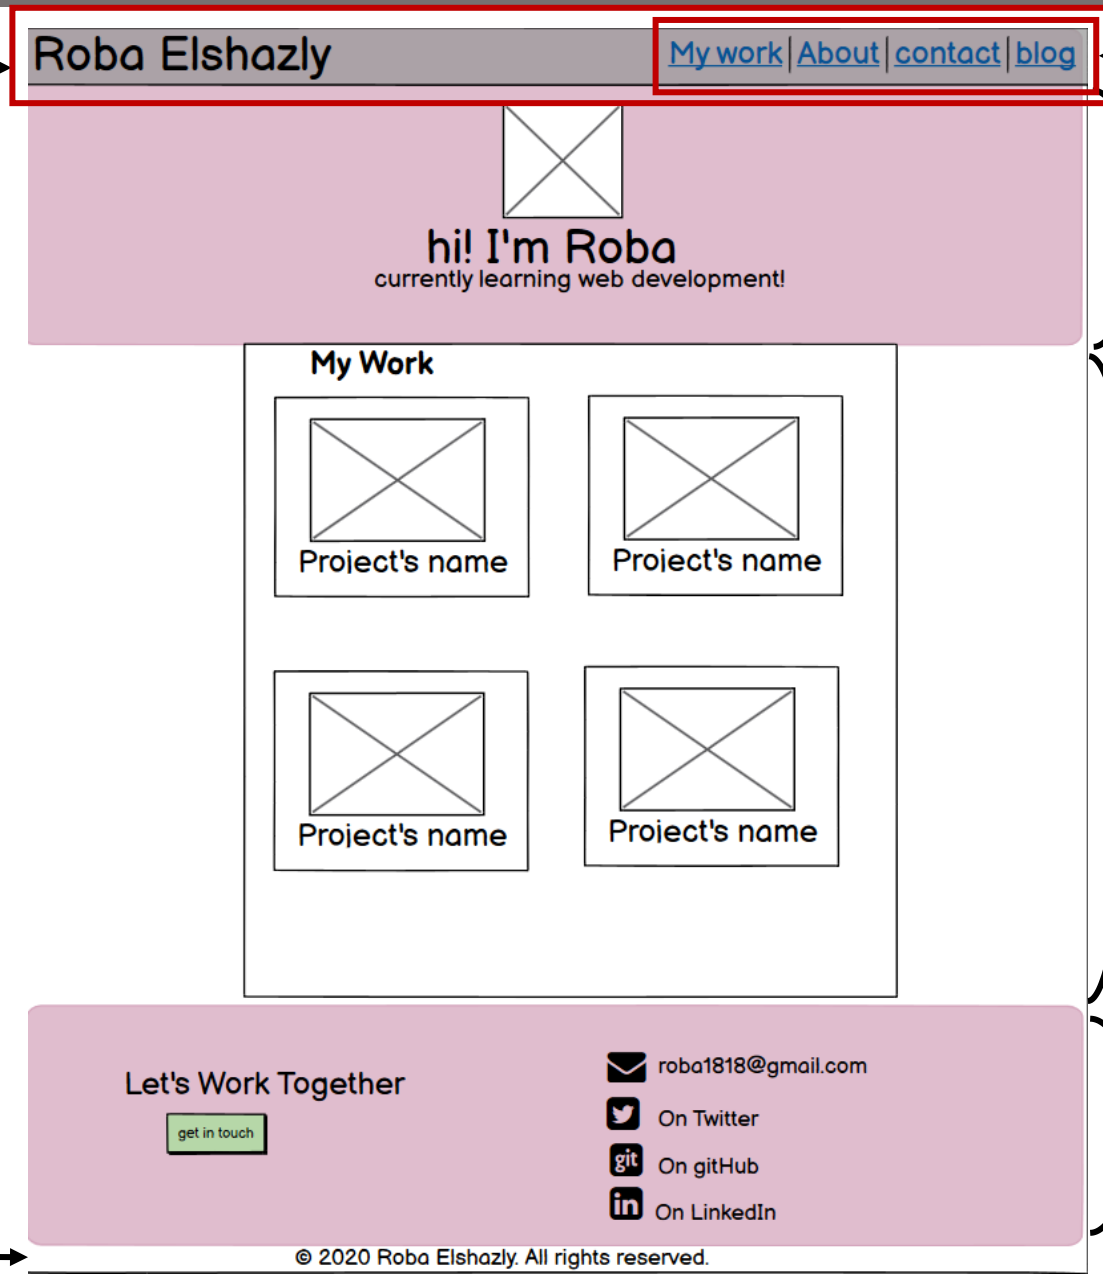
Common Components used in all pages



<header>

Contains the logo and nav bar

<nav>

For navigation links

<Section>

For the banner .IncludesThe paragraph that changes to identify each page.

<Section>

For the main content.Content changes with each page.

<Section>

Fot the social media links and a quick access to contact me page.

<footer>

Design Process:

- Used flex box to maintain a good view for small screens.
- Fixed header at the top as you scroll.
- Rounded corners for containers.
- Light shadow for images.
- Used forms in contact me page to follow up with users.
- Changing the colors of the links when hovered.
- When hovering images of the projects, they zoom out.
- Font size changes for smaller screen.
- All used images were free to use from unsplash.

Challenges:

- Responsive design.
- Optimizing images sizes.
- What Contents to put in the home page.
- Creating a simple design.
